

**3D MINERALS**  
Print the Future

# 3D Printer with rotary table

## Technical datasheet

This 3D Printer is equipped with 3D Minerals' patented S.D.M. technology. Optimal to print revolutionary parts.

### ***S.D.M. technology (Slurry.Deposition.Modeling)***

- "-No print size limit*
- Control of the firmness of the paste and its evolution during time*
- Technical and traditional ceramics*
- Quick and easy preparation of the paste directly in the extruder."*

### **Technical data :**

- Printing size : H = 2000 mm Ø = 1500 mm.  
*Modular printer dimensions according to the customer needs*
- Optimal to print revolutionary parts.
- Works with S.D.M. technology.
- Enclosed 3D Printer to ensure safety.
- Simple 3D Printer control.
